Privacy Policy

This terms is between us and you, dear customers:

1. We do not have any information about your identity, except for the account of some of your social networks for use in 2FA, and we protect them strictly. Preventing the penetration of hackers is our daily work.
2. We will carefully maintain your hard-earned property and we will prevent the pressure of governments and countries to collect taxes, etc. as far as we can.
3. We will cooperate with all countries where cooperation is possible and we ask all countries to adhere to the laws of free economic space. Blockchain is inherently uncontrollable and we cannot impose special rules on it.
4. In case of any accident or damage to the bank systems or government pressures, we will share them with you in a transparent manner and we will not leave any confidential correspondence that will affect your economic decisions.
5. PrexBank is a full-service commercially focused bank providing a broad range of products and services to its customers. At PrexBank, protecting our customers' privacy and financial assets has always been at the core of our business. We value the trust that our customers have placed in PrexBank by choosing to do business with us. The Bank recognizes its responsibility to keep the information

that we obtain about our customers secure and confidential in accordance with this Privacy Policy.

6. The Board of Directors has adopted this policy in order to comply with Applicable Law. The Board of Directors and management recognize and respect the privacy expectations of its customers and consider the safekeeping of customer information a fundamental responsibility of the Bank.
7. Our products, services, information and materials contained within these web pages may not be available for residents of certain jurisdictions. 14. PrexBank is a new financial technology system based on blockchain and its software is a virtual bank, not a real bank. The PrexBank community is a global NGO.
15. Digital assets are highly speculative in nature, carry a high degree of risk and can quickly and significantly decrease in value. It is necessary for people with economic knowledge to act and prevent the use of children. Although the bank will not be an obstacle to create an account for children with practice amounts.
16. Capital at risk. This information is not investment advice. Security values can go up and down. Past performance is not indicative of future results. Crypto assets are high risk and can lose all their value. Be careful of using global markets in our app because it requires high skill. PrexBank cannot accept misuse or financial losses in your transactions.
17. We will probably disagree with some countries on regulatory and financial and money laundering laws. Please be with us in all situations so that we can continue this bank. We back up all your account information continuously in multiple locations around the world. Be sure to create a public key before each withdrawal from your assets and save it. So that in case of accidents or security pressures, we can recover your assets using our static codes. Your assets are stored in your public key and can only be retrieved with your private key. In case of a crisis and the need to recover financial resources, we will activate the recovery website and you will receive your assets with smart contracts of different networks using public key and private key. This is the E network technology.
